

Abstract Submission ID	Title of Abstract	Abstract No.	Session	Session date / time	Presentation Room
id001	Most wheat-allergic patients can safely consume barley tea	AO-16	General Session (Oral) [Oral food challenge]	November 12th (Sat.) 16:15~17:15 (JST)	Room 8
id002	Asthma exacerbation is associated with distinct changes of microbial composition in the upper airway	AP-8	General Session (Poster) [Asthma and allergic airway diseases]	November 12th (Sat.) 10:30~11:05 (JST)	Poster Exhibition Room
id003	Early neonatal hen's egg ingestion for prevention of immediate type egg allergy: A multicenter randomized controlled trial	AO-2	General Session (Oral) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~11:00 (JST)	Room 6
id004	Perinatal exposures modulates the association between nasopharyngeal microbiota and wheezing in young Chinese children	AP-4	General Session (Poster) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~10:25 (JST)	Poster Exhibition Room
id005	Infantile eczema and food allergy are associated with early exposures to major human milk oligosaccharides	AP-3	General Session (Poster) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~10:25 (JST)	Poster Exhibition Room
id006	Introduction of our Children Skin Care Educational Admission	AP-23	General Session (Poster) [Atopic dermatitis]	November 12th (Sat.) 15:25~15:55 (JST)	Poster Exhibition Room
id007	Prevalence on macrolide resistance of <i>Mycoplasma pneumoniae</i> : a systematic review and meta-analysis	AO-43	General Session (Oral) [Others]	November 13th (Sun.) 10:10~11:40 (JST)	Room 9
id009	Poultry exposure modulates immune responses for rural protection against childhood asthma	AO-3	General Session (Oral) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~11:00 (JST)	Room 6
id010	Epidemiology and clinical features of wheat allergy in Hong Kong Chinese children	AP-15	General Session (Poster) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~14:55 (JST)	Poster Exhibition Room
id011	Risk factors of positive results in cow's milk low-dose oral food challenge: a multicenter retrospective study in Japan	AO-14	General Session (Oral) [Oral food challenge]	November 12th (Sat.) 16:15~17:15 (JST)	Room 8
id012	Safety of oral food challenge, prognosis and prognostic factors of hen's egg allergy in Japanese infants; a retrospective study	AP-36	General Session (Poster) [Food allergy2]	November 13th (Sun.) 8:55~9:25 (JST)	Poster Exhibition Room
id013	Risk factors for an aversion to eggs after negative oral food challenge in children with egg allergies: a multicenter questionnaire survey in Japan	AO-17	General Session (Oral) [Oral food challenge]	November 12th (Sat.) 16:15~17:15 (JST)	Room 8
id015	Quality of Life of Children with Atopic Dermatitis Ages 4-16 Years Old Using the Filipino Translation of Children's Dermatology Life Quality Index Questionnaire	AP-24	General Session (Poster) [Atopic dermatitis]	November 12th (Sat.) 15:25~15:55 (JST)	Poster Exhibition Room
id017	A 9 years old Boy with Generalized Erythematous Skin Eruption: A case of Erythroderma	AP-20	General Session (Poster) [Allergic diseases]	November 12th (Sat.) 15:00~15:20 (JST)	Poster Exhibition Room
id018	Longitudinal atopic dermatitis phenotypes with early life gut transcriptome profiles: COCOA birth cohort	AO-25	General Session (Oral) [Atopic dermatitis]	November 12th (Sat.) 16:15~17:30 (JST)	Room 9
id019	Perinatal maternal anxiety affects atopic dermatitis and food allergy in offspring	AP-14	General Session (Poster) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~14:55 (JST)	Poster Exhibition Room
id021	The effectiveness and safety of biologic agents in eight cases with pediatric bronchial asthma in clinical practice	AO-48	General Session (Oral) [Asthma]	November 13th (Sun.) 13:10~14:10 (JST)	Room 9
id022	COVID-19 Vaccine Testing and Administration in Drug-allergic Patients in Hong Kong	AO-42	General Session (Oral) [Others]	November 13th (Sun.) 10:10~11:40 (JST)	Room 9
id023	Increasing trend of tree nuts in a comprehensive survey of pediatric anaphylaxis in Aichi Prefecture, Japan	AO-12	General Session (Oral) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~15:55 (JST)	Room 8
id024	Risk factors of positive results in hen's egg low-dose oral food challenge: a multicenter retrospective study in Japan	AP-37	General Session (Poster) [Food allergy2]	November 13th (Sun.) 8:55~9:25 (JST)	Poster Exhibition Room
id025	A case of cow's milk induced eosinophilic enterocolitis masquerading as necrotizing enterocolitis in an extremely low birth weight preterm baby	AP-39	General Session (Poster) [FPIES and EGID]	November 13th (Sun.) 9:30~9:50 (JST)	Poster Exhibition Room
id026	Fracture incidence in children after developing atopic dermatitis or food allergy	AP-13	General Session (Poster) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~14:55 (JST)	Poster Exhibition Room
id027	Factors associated with liberalizing food restriction 6 months after oral food challenge: A good baseline quality of life may be beneficial	AO-22	General Session (Oral) [Treatment of Food allergy]	November 12th (Sat.) 9:45~11:15 (JST)	Room 9
id028	Pollen-food allergy syndrome is one of the manifestations of allergic march	AO-35	General Session (Oral) [Clinical features of Food allergy]	November 13th (Sun.) 8:20~9:20 (JST)	Room 9
id029	Interrupted time series of the longitudinal impact of the COVID-19 pandemic and the reduction of respiratory viral infections on the onset of childhood asthma	AP-6	General Session (Poster) [Asthma and allergic airway diseases]	November 12th (Sat.) 10:30~11:05 (JST)	Poster Exhibition Room
id030	: An association of phthalate exposure with skin barrier function in children	AO-26	General Session (Oral) [Atopic dermatitis]	November 12th (Sat.) 16:15~17:30 (JST)	Room 9
id031	Associations of frequent emollient use with wheeze and asthma in young Japanese children: A survey of well-child visits	AO-45	General Session (Oral) [Asthma]	November 13th (Sun.) 13:10~14:10 (JST)	Room 9
id032	Air pollution, pollen and respiratory diseases: Analyzed based on artificial intelligence algorithm	AO-44	General Session (Oral) [Asthma]	November 13th (Sun.) 13:10~14:10 (JST)	Room 9
id033	Combination of heat-killed <i>Lactiplantibacillus plantarum</i> YIT 0132 (LP0132) and oral immunotherapy in cow's milk allergy: a randomized controlled trial	AO-18	General Session (Oral) [Treatment of Food allergy]	November 12th (Sat.) 9:45~11:15 (JST)	Room 9
id034	atopic dermatitis and subsequent development of autoimmune disease in children	AP-22	General Session (Poster) [Atopic dermatitis]	November 12th (Sat.) 15:25~15:55 (JST)	Poster Exhibition Room
id035	Gut Microbiome Analysis of Children with Food Anaphylaxis in a Single Institution	AO-5	General Session (Oral) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~11:00 (JST)	Room 6
id036	Comparison of efficacy and safety of low dose cyclosporine with various immunomodulators in atopic dermatitis: A systematic review and meta-analysis	AO-29	General Session (Oral) [Atopic dermatitis]	November 12th (Sat.) 16:15~17:30 (JST)	Room 9

Abstract Submission ID	Title of Abstract	Abstract No.	Session	Session date / time	Presentation Room
id037	Current practice of antibiotic skin testing: a single-center experience	AP-19	General Session (Poster) [Allergic diseases]	November 12th (Sat.) 15:00~15:20 (JST)	Poster Exhibition Room
id038	Prospective observational study to confirm the acquisition of tolerance for hen's egg allergy	AO-31	General Session (Oral) [Clinical features of Food allergy]	November 13th (Sun.) 8:20~9:20 (JST)	Room 9
id039	Low-dose oral immunotherapy for multiple tree nut or peanut allergy: 2-year follow-up	AO-19	General Session (Oral) [Treatment of Food allergy]	November 12th (Sat.) 9:45~11:15 (JST)	Room 9
id040	Using Simple Lifestyle Indicators to Predict Aeroallergen Sensitization in Children with Allergic Respiratory Diseases	AP-18	General Session (Poster) [Allergic diseases]	November 12th (Sat.) 15:00~15:20 (JST)	Poster Exhibition Room
id041	Decreased XCL1 expression in children with atopic dermatitis	AO-28	General Session (Oral) [Atopic dermatitis]	November 12th (Sat.) 16:15~17:30 (JST)	Room 9
id042	Factors influencing the quality of life in children with atopic dermatitis in Korea: a multicenter cross-sectional study	AP-25	General Session (Poster) [Atopic dermatitis]	November 12th (Sat.) 15:25~15:55 (JST)	Poster Exhibition Room
id043	Fluctuations of aeroallergen-specific immunoglobulins and children's allergic profiles: Japan Environment & Children's Study of a pilot cohort	AO-9	General Session (Oral) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~15:55 (JST)	Room 8
id044	Analysis of risk factors for failure to achieve sustained unresponsiveness in cow's milk oral immunotherapy	AO-20	General Session (Oral) [Treatment of Food allergy]	November 12th (Sat.) 9:45~11:15 (JST)	Room 9
id045	Impact of sensitization to mites and cedar on the outcome of oral food challenge test	AP-33	General Session (Poster) [Food allergy2]	November 13th (Sun.) 8:55~9:25 (JST)	Poster Exhibition Room
id046	Clinical features and cross-reactivity of coconut allergy in Thai children	AO-34	General Session (Oral) [Clinical features of Food allergy]	November 13th (Sun.) 8:20~9:20 (JST)	Room 9
id047	Real-world efficacy of subcutaneous immunotherapy in Thai children with allergic rhinitis	AP-11	General Session (Poster) [Asthma and allergic airway diseases]	November 12th (Sat.) 10:30~11:05 (JST)	Poster Exhibition Room
id048	IgE-mediated fish allergy in Singaporean children	AP-16	General Session (Poster) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~14:55 (JST)	Poster Exhibition Room
id049	Exanthematous Drug eruption induced by polyethylene glycol (MOVICOL®) in a 3-year-old girl	AP-21	General Session (Poster) [Allergic diseases]	November 12th (Sat.) 15:00~15:20 (JST)	Poster Exhibition Room
id050	Common Food Triggers of Anaphylaxis in Three Asian Cities - the APAPARI Anaphylaxis Registry	AO-11	General Session (Oral) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~15:55 (JST)	Room 8
id051	Chinese is Associated with more Severe Anaphylaxis: the APAPARI Anaphylaxis Registry	AO-10	General Session (Oral) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~15:55 (JST)	Room 8
id052	The stability of a newly-developed in-house wheat gliadin extract using skin test and in-vitro cell degranulation assay	AO-53	General Session (Oral) [Diagnosis of Food allergy]	November 13th (Sun.) 15:00~16:00 (JST)	Room 9
id053	Dietary intervention for asthma prevention: Summary of evidence and recommendations	AP-1	General Session (Poster) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~10:25 (JST)	Poster Exhibition Room
id054	Tools for assessing food allergies: patient knowledge and confidence in coping with food allergies	AO-23	General Session (Oral) [Treatment of Food allergy]	November 12th (Sat.) 9:45~11:15 (JST)	Room 9
id055	Measurement of skin moisture content and transepidermal water loss on the body of atopic dermatitis	AP-26	General Session (Poster) [Atopic dermatitis]	November 12th (Sat.) 15:25~15:55 (JST)	Poster Exhibition Room
id056	Determine the Blinding and Acceptability of Recipes with Grass Carp for Double-Blind Placebo-Controlled Food Challenges	AP-34	General Session (Poster) [Food allergy2]	November 13th (Sun.) 8:55~9:25 (JST)	Poster Exhibition Room
id057	A Case of Suspected Eosinophilic Gastroenteritis in an Infant with a Giant Ruptured Omphalocele	AP-42	General Session (Poster) [FPIES and EGID]	November 13th (Sun.) 9:30~9:50 (JST)	Poster Exhibition Room
id058	Predicting outcome of oral food challenges for determining tolerance development in children with food allergy	AO-51	General Session (Oral) [Diagnosis of Food allergy]	November 13th (Sun.) 15:00~16:00 (JST)	Room 9
id059	Predictors of Eczema in Hong Kong Children from Birth to 12 Months	AO-1	General Session (Oral) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~11:00 (JST)	Room 6
id060	The influence of sweet diet on childhood asthma	AO-46	General Session (Oral) [Asthma]	November 13th (Sun.) 13:10~14:10 (JST)	Room 9
id061	Behavior and parenting stress characteristics in young children with severe food allergy according to the food allergy severity score	AO-24	General Session (Oral) [Treatment of Food allergy]	November 12th (Sat.) 9:45~11:15 (JST)	Room 9
id062	Problems of online education for nursery school workers in pre-hospital care of anaphylaxis	AP-45	General Session (Poster) [Others]	November 13th (Sun.) 9:55~10:15 (JST)	Poster Exhibition Room
id065	One year trajectory of sensitization of egg white, egg yolk, and egg white components in atopic dermatitis infants without history of egg ingestion	AP-29	General Session (Poster) [Food allergy1]	November 13th (Sun.) 8:20~8:50 (JST)	Poster Exhibition Room
id066	Hypertensive disorders of pregnancy and risk of allergic conditions in the offspring during early childhood: Findings from the Japan Environment and Children's Study (JECS)	AO-41	General Session (Oral) [Others]	November 13th (Sun.) 10:10~11:40 (JST)	Room 9
id067	Risk factors for multiple doses of epinephrine among children and adolescents with anaphylaxis treated in the emergency department: data from the multicenter Korean registry	AO-37	General Session (Oral) [Others]	November 13th (Sun.) 10:10~11:40 (JST)	Room 9
id068	Food allergy and quality of life: a review of systematic reviews	AP-32	General Session (Poster) [Food allergy1]	November 13th (Sun.) 8:20~8:50 (JST)	Poster Exhibition Room
id069	Practice patterns for allergic reactions and risk factors of anaphylaxis after pediatric oral food challenge for food allergies: A retrospective analysis of health insurance claims data	AO-13	General Session (Oral) [Oral food challenge]	November 12th (Sat.) 16:15~17:15 (JST)	Room 8
id070	Efficacy and safety of low-dose oral immunotherapy combined with <i>Lactobacillus rhamnosus</i> GG for children with severe peanut allergy	AP-31	General Session (Poster) [Food allergy1]	November 13th (Sun.) 8:20~8:50 (JST)	Poster Exhibition Room

Abstract Submission ID	Title of Abstract	Abstract No.	Session	Session date / time	Presentation Room
id072	1-FEV ₁ /FEV ₂ as a surrogate metric for small airway obstruction in childhood asthma	AO-47	General Session (Oral) [Asthma]	November 13th (Sun.) 13:10~14:10 (JST)	Room 9
id073	Risk factors of positive results in wheat low-dose oral food challenge: a multicenter retrospective study in Japan	AP-38	General Session (Poster) [Food allergy2]	November 13th (Sun.) 8:55~9:25 (JST)	Poster Exhibition Room
id074	Role of eosinophil and neutrophils on lung function and prognosis in children with acute asthma exacerbation	AP-9	General Session (Poster) [Asthma and allergic airway diseases]	November 12th (Sat.) 10:30~11:05 (JST)	Poster Exhibition Room
id075	The changes of specific IgE and IgG4 antibodies after one-year of tree pollen subcutaneous immunotherapy	AP-44	General Session (Poster) [Others]	November 13th (Sun.) 9:55~10:15 (JST)	Poster Exhibition Room
id076	Clinical features of food allergy patients developed during school age	AO-32	General Session (Oral) [Clinical features of Food allergy]	November 13th (Sun.) 8:20~9:20 (JST)	Room 9
id077	Food protein-induced enterocolitis syndrome caused by ingestion of wheat in a child with Down syndrome: A case report	AP-40	General Session (Poster) [FPIES and EGID]	November 13th (Sun.) 9:30~9:50 (JST)	Poster Exhibition Room
id078	Increased and stronger tree nut sensitization trend in Japanese children over the last two decades	AO-33	General Session (Oral) [Clinical features of Food allergy]	November 13th (Sun.) 8:20~9:20 (JST)	Room 9
id079	Effects of ambient air pollution exposure during pregnancy on prematurity	AP-46	General Session (Poster) [Others]	November 13th (Sun.) 9:55~10:15 (JST)	Poster Exhibition Room
id080	The Severity of Allergic Rhinitis is Related to Sleep Disturbances in Korean Children and Adolescents	AO-39	General Session (Oral) [Others]	November 13th (Sun.) 10:10~11:40 (JST)	Room 9
id081	An analysis of 62 oral food challenge to horse mackerel	AP-35	General Session (Poster) [Food allergy2]	November 13th (Sun.) 8:55~9:25 (JST)	Poster Exhibition Room
id082	Clinical characteristics of anchovy allergy in children	AP-28	General Session (Poster) [Food allergy1]	November 13th (Sun.) 8:20~8:50 (JST)	Poster Exhibition Room
id083	Comparison of IgE-binding capacities in 4 types of crude peach extracts using sera from peach allergic children	AO-52	General Session (Oral) [Diagnosis of Food allergy]	November 13th (Sun.) 15:00~16:00 (JST)	Room 9
id084	Construction of peptide-based virus-like-particle vaccine for treatment of shrimp allergy	AO-21	General Session (Oral) [Treatment of Food allergy]	November 12th (Sat.) 9:45~11:15 (JST)	Room 9
id085	Characteristics of Challenge-proven Peanut-allergic Children in Hong Kong	AO-49	General Session (Oral) [Diagnosis of Food allergy]	November 13th (Sun.) 15:00~16:00 (JST)	Room 9
id086	Risk factors of positive results in the low-dose peanut oral food challenge: a multicenter retrospective study in Japan.	AO-15	General Session (Oral) [Oral food challenge]	November 12th (Sat.) 16:15~17:15 (JST)	Room 8
id087	Severe non-IgE mediated Gastrointestinal food allergy in a patient with recurrent necrotizing enterocolitis, caused by eosinophil extracellular trap cell death.: A Case Report.	AP-41	General Session (Poster) [FPIES and EGID]	November 13th (Sun.) 9:30~9:50 (JST)	Poster Exhibition Room
id088	Relationship between food or inhalant sensitization in early life and airway inflammation and respiratory allergic diseases in childhood: COCOA study	AP-7	General Session (Poster) [Asthma and allergic airway diseases]	November 12th (Sat.) 10:30~11:05 (JST)	Poster Exhibition Room
id089	Prediction of atopic dermatitis trajectories by prenatal features: COCOA birth cohort	AP-2	General Session (Poster) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~10:25 (JST)	Poster Exhibition Room
id090	Accidental Allergic Reactions to Pre-Packaged and Restaurant Foods in Hong Kong: A Prospective Observational Study	AP-17	General Session (Poster) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~14:55 (JST)	Poster Exhibition Room
id091	Significant Implication of TGF- β 1 Promoter Variants and its mRNA and Protein Expression in Atopic Dermatitis	AO-27	General Session (Oral) [Atopic dermatitis]	November 12th (Sat.) 16:15~17:30 (JST)	Room 9
id092	The interaction effect of atopic dermatitis and food allergy on psychological and behavioral problems in children	AO-30	General Session (Oral) [Atopic dermatitis]	November 12th (Sat.) 16:15~17:30 (JST)	Room 9
id093	Recurrent anaphylaxis in children with history of food allergy	AO-36	General Session (Oral) [Clinical features of Food allergy]	November 13th (Sun.) 8:20~9:20 (JST)	Room 9
id094	The interference of azathioprine on the laboratory test for STAT1 gain-of-function (GOF) mutations- A case study	AP-43	General Session (Poster) [Others]	November 13th (Sun.) 9:55~10:15 (JST)	Poster Exhibition Room
id095	TRAJECTORY OF MATERNAL PLASMA METABOLITES, MICRONUTRIENTS AND AMINO ACIDS THROUGHOUT PREGNANCY AND ITS ROLE IN THE DEVELOPMENT OF ATOPIC DERMATITIS IN INFANTS	AO-6	General Session (Oral) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~15:55 (JST)	Room 8
id096	Distinctive allergic rhinitis phenotypes in preschool age and their natural course and comorbidities: COCOA Birth Cohort	AP-12	General Session (Poster) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~14:55 (JST)	Poster Exhibition Room
id097	IgG and IgG ₄ Profiles in Galactose-oligosaccharide (GOS) allergic subjects	AP-30	General Session (Poster) [Food allergy1]	November 13th (Sun.) 8:20~8:50 (JST)	Poster Exhibition Room
id098	Comparison of Grass Carp and Salmon Allergens: Implications for component-resolved diagnosis	AO-50	General Session (Oral) [Diagnosis of Food allergy]	November 13th (Sun.) 15:00~16:00 (JST)	Room 9
id099	ILC2 activity in infants induces stronger eosinophilic skin inflammation than in adult in an atopic dermatitis mouse model.	AO-4	General Session (Oral) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~11:00 (JST)	Room 6
id100	Low serum IFN-related molecule levels in wheezing young asthmatics	AP-10	General Session (Poster) [Asthma and allergic airway diseases]	November 12th (Sat.) 10:30~11:05 (JST)	Poster Exhibition Room
id101	THE ROLE OF FATTY ACID AND LIPID METABOLISM IN THE THIRD TRIMESTER OF PREGNANCY IN THE DEVELOPMENT OF ATOPIC DERMATITIS IN INFANTS	AO-7	General Session (Oral) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~15:55 (JST)	Room 8
id102	Early-pregnancy PM _{2.5} affects early-persistent atopic dermatitis phenotype via APOC1-mediated skin barrier dysfunction : COCOA	AO-8	General Session (Oral) [Epidemiology of Allergic Diseases]	November 12th (Sat.) 14:25~15:55 (JST)	Room 8

Abstract Submission ID	Title of Abstract	Abstract No.	Session	Session date / time	Presentation Room
id103	Effects of serum vitamin D on sublingual immunotherapy (SLIT) in children with allergic rhinitis	AO-38	General Session (Oral) [Others]	November 13th (Sun.) 10:10~11:40 (JST)	Room 9
id104	Correlation between skin prick test and specific serum IgE test for house dust mite sensitivity in paediatric atopic dermatitis patients.	AP-27	General Session (Poster) [Atopic dermatitis]	November 12th (Sat.) 15:25~15:55 (JST)	Poster Exhibition Room
id105	Atopic dermatitis in early childhood accompanied by persistent food allergy is related to school-age asthma through gut Wnt signaling : COCOA study	AP-5	General Session (Poster) [Prevention and Mechanisms of Allergic diseases]	November 12th (Sat.) 10:00~10:25 (JST)	Poster Exhibition Room
id106	Impact of rhinitis on the adenotonsillar hypertrophy and obstructive sleep apnea in children.	AO-40	General Session (Oral) [Others]	November 13th (Sun.) 10:10~11:40 (JST)	Room 9
